

Otolaryngology

Otorhinolaryngology is the area of medicine that deals with disorders and conditions of the ear, nose, and throat(ENT) region, and related areas of the head and neck. Doctors who specialise in this area are known as otorhinolaryngologists, ENT doctors, ENT surgeons, or head and neck surgeons. Patients seek treatment from an otorhinolaryngologist for diseases of the ear, nose, or throat and for the management of cancers of the head and neck.

Head and Neck Oncologic Surgery	Facial plastic and reconstructive surgery*	Otology	Neurotology*	Rhinology and Sinus Surgery	Laryngology and Voice Disorders	Pediatric Otorhinolaryngology	Sleep Medicine*
Surgical oncology	Facial cosmetic surgery	Ear	Middle and inner ear	Sinusitis	Voice disorders	Velopalatine insufficiency
